

BSP SCORING SERVICES

BSPScoring provides a service for scoring horse trials, dressage, combined training and jumping from Pony Club to FEI 5* level.

Costs for our basic service cover scoring throughout the event for any number of horses (1-500+), travel if less than 50km from home, data uploads to the web for up-to-date scores, and consumables such as paper, printer, toner etc. There is also a cost for time involved pre-event setting up the program and website as applicable. Since January 2021 we are able to offer electronic scoring with instant live scoring using our tablets and the Nominate Scoreboard App. This has a number of advantages to OCs including less use of paper, no sheet collectors required and no dressage tests to be collected at the end of the day.

Championship events can also be catered for, with final championship points calculated as per EA or PCV World Cup format rules.

In addition, we can manage your draw, with unlimited updates for withdrawals and replacements, and produce running sheets for marshalls, judges and cross-country officials.

At the conclusion of the event all results will be sent to the FEI and/or EA as appropriate and according to the organising committee's instructions, as well as published on our website, where they will remain for the rest of the year and then archived on the site for future reference. Electronic copies of results can also be provided to the OC for publication on their own website.

Additional personnel: Depending on numbers of horses and type of competition (eg Horse Trials), additional help may be required in order to get scores and final results published as quickly as possible. For smaller horse trials events where additional help is not needed for the dressage phase, a volunteer from the OC would be required to assist with manual scoring of the cross country if electronic scoring is not used.

PRICE LIST: *All prices are subject to the type of event, number of arenas, judges per test etc.

Basic Scoring Service (1 – 500+ horses) - \$300 per day or \$450 for a 2-day event (includes real time updates for paper-based scoring & final results publication of all results to the bspscoring website)

Pre-event setup - Scoring application & website set up - \$20/hour

Electronic scoring – tablet hire - \$30 per tablet per event
Use of Nominate server - \$3 per test per event (if Nominate is used for entries, there is no 'per test' charge for electronic scoring)

For 3rd and 4th days, an additional cost may apply – please contact us for details

Preparation and management of draw - \$1.00 per horse to 300 horses, includes all updates and changes, running sheets etc. (Additional horses, over 300 - 75c per horse)

Additional personnel – from \$120 per person per day

Travel & Accommodation – 50 cents/km if more than 50 km from home, or fuel only @ 22 cents/km

We can provide our own accommodation if the event is over 2 or more days (or depending on starting times and distance from home) but we will require parking and power for our motor home

Additional requirements during the event:

Refreshments/meals during the event - we are usually not able to take coffee or meal breaks

Contact us on bspscoring@yahoo.com.au to discuss any customised requirements for specialised events
